PREAMBLE

The Contracting States of this Protocol,

Having regard to the Agreement on the Creation of the African Regional Intellectual Property Organization (ARIPO) concluded in Lusaka (Zambia) on December 9, 1976, and in particular to its Article III(c), in accordance with which the objectives of the Organization include the establishment of such common services or organs as may be necessary or desirable for the co-ordination, harmonization and development of the intellectual property activities affecting its members;

Considering the advantages to be gained by the pooling of resources in respect of intellectual property administration;

Recognizing the need to have an effective *sui generis* system of intellectual property protection of new varieties of plants that meets the requirements of Article 27.3 (b) of the Trade-Related Aspects of Intellectual Property Rights (TRIPs) Agreement;

Recognizing that nationals, natural persons and legal entities of Member States shall enjoy equal treatment within the Contracting States provided that the said nationals, natural persons and legal entities comply with all conditions and formalities as set out in this Protocol;

Recognizing the need to provide growers and farmers with improved varieties of plants in order to ensure sustainable agricultural production;

Convinced that provision for plant breeders' rights in the region will allow farmers access to a wide range of improved varieties to contribute to the attainment of the regional goal of economic development and food security;

Aware that the Member States require enhanced capacity building and need to develop effective national plant variety protection systems;

Convinced of the importance of providing an effective system for the protection of new varieties of plants with the aim of encouraging the development of new varieties of plants for the benefit of the society,

- (3) The conditions for the implementation of the provisions under paragraph (2), such as the different level of remuneration to be paid by small scale commercial farmers and large scale commercial farmers and the information to be provided by the farmer to the breeder, shall be stipulated in the regulations.

Article 23

Exhaustion of Breeder's Right

(1) A breeder's right shall not extend to acts concerning any material of a protected variety, or of a variety covered by the provisions of Article 21(3), which has been sold or otherwise marketed by the breeder or with the breeder's consent in the territories of the Contracting States to the Protocol, or any material derived from the said material, unless such acts:

Article 26

Duration of Breeder's Right

CHAPTER VIII

VARIETY DENOMINATION

Article 27

 - (c) must not be liable to mislead or to cause confusion concerning the characteristics, value or identity of the variety or the identity of the breeder;
 - (d) must be different from every denomination which designates, in the territory of any Contracting State and any member of an inter-governmental organization providing an effective system of plant variety protection, an existing variety of the same plant species or of a closely related species.

(2) Subject to paragraph (5), no rights in the designation registered as the denomination of the variety shall hamper the free use of the denomination in connection with the variety, even after the expiration of the breeder's right.

(3) The denomination of a variety shall be submitted by the breeder to the ARIPO Office in accordance with Article 12.

(4) Where it is found that a denomination does not satisfy the requirements of paragraph (1), or that a prior right is in existence, the ARIPO Office shall refuse to register it and shall require the breeder to propose another denomination within a prescribed period. The denomination shall be registered by the ARIPO Office at the same time as the breeder's right is granted.

(5) If, by reason of a prior right, the use of the denomination of a variety is forbidden, to a person who, in accordance with the provisions of paragraph (10), is obliged to use it, the ARIPO Office shall require the breeder to submit another denomination for the variety.

(6) A variety must be submitted to the Contracting States, the ARIPO Office and to all members of an inter-governmental organization providing an effective system of plant variety protection under the same denomination.

Arusha Protocol for the Protection of New Varieties of Plants

(7) The ARIPO Office shall register the denomination so submitted, unless it considers the denomination unsuitable, in which case the ARIPO Office shall require the breeder to submit another denomination.

(8) The ARIPO Office shall ensure that the authorities of the Contracting States and of all members of an inter-governmental organization providing an effective system of plant variety protection are informed of matters concerning variety denominations, in particular the submission, registration and cancellation of denominations.

(9) Any Contracting State and any member of an inter-governmental organization providing an effective system of plant variety protection may address its observations, if any, on the registration of a denomination to the ARIPO Office.

(10) Any person who offers for sale or markets propagating material of a variety protected within the territories of the Contracting States is obliged to use the denomination of that variety, even after the expiration of the breeder's right in that variety, except where, in accordance with the provisions of paragraph (5), prior rights prevent such use.

(11) When a variety is offered for sale or marketed, it is permitted to associate a trademark, trade name or other similar indication with a registered variety denomination, and if such an indication is so associated, the denomination must nevertheless be easily recognizable.

CHAPTER IX

NULLITY, CANCELLATION AND SURRENDER OF BREEDER'S RIGHT

Article 28

Nullity of Breeder's Right
